

B-2 BR

MAGNETIC CONTACT (BROWN)

Magnetic contacts constitute basic elements of perimeter protection systems and their primary task is to detect attempts of opening doors and windows. Small **B-2 BR** tight face magnetic contacts are designed for flush mounting in door or window leaves and frames. This mounting method makes them invisible from the outside. The contacts are available in white and brown colour versions.

- recessed mounted
- sealed body

TECHNICAL DATA

| | |
|------------------------------------------------------------------|--------------|
| Max. reed switched voltage | 100 V |
| Max. switched current | 500 mA |
| Operating temperature range | -10...+55 °C |
| Weight | 10 g |
| Maximum humidity | 93±3% |
| Distance between last beam and laminate end – barrier upper part | 20 mm |
| Make distance | 19 mm |
| Dimensions magnet enclosure | ø9 x 14,5 mm |
| Environmental class according to EN50130-5 | II |
| Detector type (outside magnetic field) | NO |
| Reed switch enclosure dimensions | ø9 x 14,5 mm |
