

PDB-100

INDUSTRIAL BASE FOR DETECTOR SOCKETS

The industrial base facilitates the assembly of CSP system detectors in the event of surface mounted wiring routed in installation tubes. Thanks to external mounting clips, the interior of the detector mounted on the base can be protected from water entering it.

- **DB-100** socket can be surface mounted
- PG-16 cable glands or Ø16 tubes can be used
- external mounting clips enable the installation without the need to perforate the bottom of the base
- **DB-100** socket is additionally protected against water seeping in from the ceiling

TECHNICAL DATA

Weight	76 g
Dimensions	131 x 131 x 35 mm
